

460TAC Deep skin

Automatic skinner

Fully automatic fish skinner with an infeed and outfeed conveyor. The infeed and outfeed conveyors belts make the machine suitable for use on an industrial production line. This multi- purpose fish skinner is available with a range of toothed rollers to fit your application.

When reliability becomes important

Cretel designs and manufactures high quality machines and equipment with focus on hygiene, durability and efficiency, by delivering goods with the best price quality ratio.

Cretel owes its privileged market position to its ability to develop a standard range of products and tailor-made solutions.

Safety

The operator doesn't have access to the hazard zones due to the infeed conveyor system and hold down system. Easy to operate when in intensive use.

Applications

For skinning of all kinds of **fish fillets** such as Alaska pollock, Bream, Carp, Cod, Catfish, Grouper, Herring, Hake, mahi mahi, mackerel, perch, pike, salmon, snapper, tilapia and others.

Skinning methods: regular and deep skin
